

# SAFETY DATA SHEET

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758.

**Compilation date:** 14/05/25

**Version [CLP]:** 5\*

## 1. Identification of the Substance/Preparation and of the Company/Undertaking

### 1.1. Product identifier

Product form: Mixture  
**Trade name:** 2 in 1 Bleach & Detergent Tablets  
Product group: Trade product  
**Product code:** SPD1375

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1. Relevant identified uses

Main use category: Professional use  
Function or use category: Washing and cleaning products (including solvent based products).  
Professional Chlorine Disinfection Tablets

#### 1.2.2. Uses advised against

No additional information available

### 1.3. Details of the supplier of the safety data sheet

**Company Name:** Spearhead  
4 Symington Place  
Riverside Business Park  
Irvine  
KA11 5DE  
Tel: 0345 180 1800  
Email: sales@spearheadhealthcare.com

### 1.4. Emergency Telephone Number

National Poisons Information Service  
0344 892 0111  
Only for healthcare professionals.  
Registration with National Poisons Information Service optional.

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567**

Eye Irrit. 2: H319  
STOT SE 3: H335  
Aquatic Chronic: 1 H410  
EUH031

### 2.2 Label Elements

**Labelling according to Regulation (EC) No. 1272/2008 [CLP] and, as amended by GB-CLP Regulation, UK SI 2019/720**

Hazard Pictograms (CLP)

Signal word (CLP):

Hazard Statements (CLP):

Warning

H319 Causes serious eye irritation.

H335 May cause respiratory irritation.

H410 Very toxic to aquatic life with long lasting effects.

EUH031: Contact with acids liberates toxic gas

Precautionary Statements (CLP): P102: Keep out of reach of children.  
P273: Avoid release to the environment.  
P280: Wear eye protection.  
P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P337+313: If eye irritation persists: Get medical advice/attention.  
P301+330+331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
P310: Immediately call a POISON CENTER/doctor

Supplementary precautionary statements (CLP):  
P280 Wear protective clothing.  
P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
P312 Call a POISON CENTER/doctor if you feel unwell.  
P403+P233 Store in a well-ventilated place. Keep container tightly closed.  
P405 Store locked up.  
P391: Collect spillage.

### 2.3 Other Hazards

Other hazards not contributing to the classification: No presence of PBT and vPvB ingredients.

The full texts for all H- and EUH-phrases are displayed in Section 16 'Other Information'.

### 3. Composition/information on ingredients:

Common Name	CAS No./ EC No.	Classification According to (EC) 1272/2008 (CLP)	Conc (%)
SODIUM DICHLOROISOCYANURATE ANHYD  <i>REACH Reg. No: 01-2119489371-33-XXXX</i>	2893-78-9 220-767-7	Acute Tox. 4; H302 Eye Irrit. 2; H319 STOT SE 3; H335 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 EUH031	30 - 60
ADIPIIC ACID  <i>REACH Reg No: 01-211945-75-XXXX</i>	124-04-9 204-673-3	Eye Irrit. 2; H319	10 - 25
ALKANE SULPHONATE, SODIUM SALT	85711-69-9 288-330-3	Eye Dam. 1, H318 Skin Irrit. 2, H315	5 - 10

The full texts for all H- and EUH-phrases are displayed in Section 16 'Other Information'.

### 4. First-aid measures

#### 4.1. Description of first aid measures

First-aid measures after inhalation: IF INHALED: remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice if you feel unwell.  
First-aid measures after skin contact: IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.  
First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, immediately call a doctor or consult an eye specialist/ ophthalmologist  
First-aid measures after ingestion: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Drink plenty of water. Seek medical advice.

#### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: Coughing. sneezing.  
Symptoms/injuries after skin contact: Redness. Swelling. dryness. Itching.  
Symptoms/injuries after eye contact: Severe pain. Redness. Swelling. Blurred vision.  
Symptoms/injuries after ingestion: Oral mucosal or gastro-intestinal irritation. Nausea. Vomiting. Excessive secretion. Diarrhoea.

### 4.3. Indication of any immediate medical attention and special treatment needed

Refer to section 4.1.

### 5. Fire fighting measures

**Extinguishing media:** Product itself is not explosive or flammable. The product itself will not burn. If anything, packaging may be involved in a fire. Use CO<sub>2</sub>, dry chemical powder, alcohol resistant foam or other media appropriate for materials actually involved in the fire. If water is used, contain run-off.

**Special hazards:** When heated sufficiently, product may decompose to form toxic fumes, including chlorine gases.

**Special protective equipment:** Fire fighters should wear approved self-contained breathing apparatus and full protective clothing.

### 6. Accidental release measures

#### Personal precautions:

Avoid contact with skin and eyes. Avoid inhalation of dust. For appropriate personal protection see section 8.

#### Environmental precautions:

Although this product is suitable for down the drain disposal it is advised that as much of the solid is contained and scooped up, before final dispersal of any residue with water.

#### Methods and material for containment and clean-up:

Prevent leakage into sewers or surface water by utilising bunding, absorbent booms, drain covers and soil or sand dikes. Contact appropriate environmental protection agencies, (Environment Agency in the UK) and local water authorities if significant contamination occurs.

For small and large spills: scoop spillage into suitable plastic containers and rework/dispose as per local legislation.

### 7. Handling and storage

#### Precautions for safe handling:

Avoid inhalation of dust. DO NOT mix with other chemicals. Never add water directly to this product as it may cause a vigorous reaction or boiling. Always dilute by carefully adding the tablets to water. Avoid contact with neat product on skin and eyes. Wear protective clothing as per section 8.

#### Storage precautions:

Store in closed original container, with tight fitting lid, in a cool and dry area, with good ventilation.

### 8. Exposure controls / personal protection

#### 8.1. Control parameters

Contains no substances with occupational exposure limit values.

#### 8.2. Exposure controls

8.2.1. Appropriate engineering controls: Not applicable.

8.2.2. Personal protective equipment

Hand protection: Wear gloves during direct contact and hand-washing.

Eye protection: Wear eye/face protection.

Skin and body protection: Wear appropriate long-sleeved clothing to minimize skin contact

Respiratory protection: Wear appropriate respirator when ventilation is inadequate, P3.

#### 8.2.3. Environmental exposure controls:

No particular measures required

### 9. Physical and chemical properties

Appearance: White tablet

Odour: Faint Chlorine

pH (as sold): ca. 5-6

Melting point: Not determined

Boiling point: Not determined

Flash point: Not combustible

Evaporation rate: Not determined

Flammability: Not combustible

Explosive properties: Non-Explosive

Oxidising properties: Not determined

Vapour pressure/density: Not determined

Relative density: ca. Not Determined

Water solubility: Soluble 2.5g/ 100 ml

Partition coefficient: Not determined

Auto ignition temperature: Not combustible  
Decomposition temperature: Not determined  
Viscosity: Not determined

## 10. Stability and reactivity

### Stability:

Stable under normal conditions.

### Conditions to avoid:

Reacts violently with strong acids. Generates toxic gas in contact with acid. The product will harden into a solid mass in contact

with water and moisture. Avoid exposure to high temperatures or direct sunlight.

### Materials to avoid:

Strong acids. Aluminium, Tin, Zinc and their alloys.

Do not mix with other cleaning products unless advised to do so by a professional from the industry.

### Hazardous decomposition products

Toxic chlorine gas can be released if heated. When heated, vapours/gases hazardous to health may be formed.

## 11. Toxicological information

### 11.1 Information on toxicological effects

#### Acute Oral Toxicity:

May cause burns in mucous membranes, throat, oesophagus and stomach.

#### Acute Inhalation Toxicity:

Dusts may irritate throat and respiratory system and cause coughing.

#### Acute Dermal Toxicity:

Irritating/ damaging to skin

#### Skin Corrosion/Irritation:

May cause chemical burns of the skin. Prolonged contact may cause tissue damage.

#### Serious eye damage/eye irritation:

Risk of corneal damage. Visual disturbances including blurred vision.

#### Sensitisation:

Not expected to provoke a sensitisation reaction.

#### Repeated Dose Toxicity:

Not data available.

**Assessment of STOT single exposure:** No data available

**Assessment of STOT repeated exposure:** No data available

**Risk of Aspiration Toxicity:** No data available

<b>Acute toxicity</b>	LD <sub>50</sub> rat (oral)	735	mg/kg	Data for sodium dichloroisocyanurate
	LD <sub>50</sub> rat (oral)	> 5500	mg/kg	Data for adipic acid
	LD <sub>50</sub> rabbit (derm)	> 2000	mg/kg	Data for sodium dichloroisocyanurate
	LD <sub>50</sub> rabbit (derm)	7940	mg/kg	Data for adipic acid
	LC <sub>50</sub> rat (inhal)	> 150	mg/m <sup>3</sup>	Data for sodium dichloroisocyanurate (1 hour)
<b>Dermal compatibility</b>	Strongly irritant. Data for sodium dichloroisocyanurate			
<b>Mucous membrane compatibility</b>	Strongly irritant to eyes Data for sodium dichloroisocyanurate			
<b>Further information</b>	None sensitising (guinea pig - data for sodium dichloroisocyanurate).			

## 12. Ecological information

<b>12.1 Toxicity</b>	LC <sub>50</sub>	Fish (Rainbow trout)	0.22	mg/l	96 hr sodium dichloroisocyanurate
	LC <sub>50</sub>	Fish (Bluegill sunfish)	0.28	mg/l	96 hr sodium dichloroisocyanurate
	LC <sub>50</sub>	Daphnia magna	0.20	mg/l	48 hr sodium dichloroisocyanurate
	LC <sub>50</sub>	Daphnia magna	46	mg/l	48 hrs Data for adipic acid

<b>12.2 Degradability</b>	Not determined	
<b>12.3 Bioaccumulative potential</b>	LogBCF: 3.162	Data for adipic acid
<b>12.4 Mobility in soil</b>	60% degradation 1-6 days (Data for adipic acid)	
<b>12.5 PBT/vPvB assessment</b>	Not applicable	
<b>12.6 Other adverse effects</b>	Do not allow to get into waste water or waterways; if this occurs, inform the relevant water authority at once.	

On the basis of raw materials and comparable substances contained in the product the following ecological evaluation is obtained.  
**Ecotoxicity:** This product is intended for wide dispersive use, is not considered harmful to aquatic organisms and is compatible with the down-the-drain disposal route. No known adverse effects on the functioning of water treatment plants under normal use conditions as recommended. The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

**Persistence and degradability:** Rapidly degrades to Sodium Chloride by chemical reaction with organic matter in effluent. This product has not been found to cause long-term adverse effects in the environment. The surfactants used in this product are biodegradable in line with the requirements of EU Detergent Regulation (EC) No 648/2004. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

**Bioaccumulative potential:** The surfactant ingredients of this product are not expected to bioaccumulate.

**Mobility in soil:** Not determined.

### 13. Disposal considerations

Consumer products ending up down the drain after use. Observe safe handling precautions and local legislation.

The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation EC/648/2004 on detergents.

### 14. Transport information

<b>14.1 United Nations number (ADR, IMDG, IATA)</b>	Not Dangerous Goods
<b>14.2 Proper shipping name (ADR, IMDG, IATA)</b>	Not Dangerous Goods
<b>14.3 Transport class(s) (ADR, IMDG, IATA)</b>	Not Dangerous Goods
<b>14.4 Packing group (ADR, IMDG, IATA)</b>	Not Dangerous Goods
<b>14.5 Environmental hazards (ADR, IMDG, IATA)</b>	Not Dangerous Goods
<b>14.6 Special procedures</b>	Not applicable
<b>14.7 Transport in bulk</b>	Not applicable

### 15. Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### 15.1.1. EU-Regulations

No REACH Annex XVII restrictions. Contains no substance on the REACH candidate list

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

##### 15.1.2. National regulations

No additional information available

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out

#### 16. Other information

Usage and handling instructions are not mentioned on this Material Safety Data Sheet. The labelling of the product is indicated in Section 2.2.

The full text of the H- and EUH-phrases indicated in this safety data sheet are as follows:

H302:	Harmful if swallowed.
H315:	Causes skin irritation.
H318:	Causes serious eye damage
H319:	Causes serious eye irritation.
H335:	May cause respiratory irritation.
H400:	Very toxic to aquatic life
H410:	Very toxic to aquatic life with long lasting effects
EUH031	Contact with acids liberates toxic gas.

The information given has been compiled with reference to the Chemicals (Hazard Information & Packaging For Supply) Regulations (CHIP4) 2009 as amended, the Registration, Evaluation, Authorisation & Restriction of Chemicals (REACH) Regulations, as amended, the Control of Substances Hazardous to Health Regulations (COSHH) 2002, as amended, and Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006. This information also harmonises the provisions and criteria for the classification and labelling of substances, mixtures and certain specific articles within the Community, taking into account the classification criteria and labelling rules of the GHS.

\* Version History - Reason for Revision:

1. Add Classification According to (EC) 1272/2008 (CLP)
2. Remove Classification According to Directive 67/548/EEC or 1999/45/EC. Update Supplier Address.
3. Update GB-CLP Regulation. Update UK SI.

**Legal disclaimer:** The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
