

## SAFETY DATA SHEET

compiled according to Regulation (EC) No. 1272/2008

Compilation date: 21/10/2022

Revision: 1

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

Product name: Spearhead Flanette Wipes (50 wipes)  
Product group: Trade product  
Product code: SDW501

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Consumer use. Cosmetic use.

#### 1.3. Details of the supplier of the safety data sheet

Company Name: Spearhead  
4 Symington Place  
Riverside Business Park  
Irvine  
KA11 5DE  
Tel: 0345 180 1800  
Email: sales@spearheadhealthcare.com

### 2. HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

Classification (EC) No. 1272/2008

Physical and chemical hazards: Not classified.  
Human health: Not classified.  
Environment: Not classified.

#### 2.2 Label elements

Label in accordance with (EC) No. 1272/2008 No pictogram required.  
Hazard Statements: Not classified.  
Precautionary Statements: Not classified.

#### 2.3 Other hazards

Not classified.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Mixtures

N/A.

### 4. FIRST AID MEASURES

#### 4.1. Description of first aid measures

Inhalation: First aid is normally not required. If heated up to high temperatures, the product may form vapors or fumes which may cause irritation to the respiratory tract.

Skin contact: First aid is normally not required. If this product irritates the skin, wash with soap and water. Wash contaminated clothing before reuse. Use hand creams to soothe and moisten irritated skin. Get medical attention if irritation develops or persists.

Eye contact: First aid is normally not required. Irrigate with copious quantity of water for 15 minutes. Seek medical assistance if symptoms persist.

## 5. FIREFIGHTING MEASURES

### 5.1. Extinguishing media

Extinguishing media: Use alcohol resistant foam. Carbon dioxide (CO<sub>2</sub>). Dry chemicals.

### 5.2. Special hazards arising from the substance or mixture

Specific hazards: Does not ignite. Non combustible hazardous.

### 5.3. Combustion products

Combustion products: Combustion gases are similar to those from natural fibers such as wool - mostly carbon dioxide, water and oxides of nitrogen. However, carbon monoxide small amounts of hydrogen cyanide and various other toxic gases may be produced depending on the conditions of burning. In insufficient oxygen some toxic gases are produced including carbon monoxide.

Unusual fire and explosion hazards: Nonwoven aramid spun laced fabrics are inherently flame resistant but can be ignited (limiting oxygen index for Nonwoven is approx. 28 and decreases to 21 as the temperature approaches 300 deg C). Burning normally stops when the ignition source is removed. Styles R-309 and R313 are somewhat more flammable due to their resin - pigment coating. However, they pose no unusual flammability hazard.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Spills and disposal

Vacuum, shovel, pick up or sweep up material for salvage or disposal. It is stable in all recommended use environments and requires no special spill handling procedures. When Nonwoven fibre is burnt, no usual combustion gases have been observed, and its combustion products are similar to those of other organic materials composed of the same elements. This product is not readily biodegradable, nor radioactive. It contains no significant percentage of materials extractable in water so its effect on ground water in case of landfill should be negligible.

### 6.2. Waste disposal

Product is a hazardous waste as defined by regulations implementing the Resource Conservation and Recovery Act. Since the nonwoven is essentially nonbiodegradable, do not flush to surface water or sanitary sewer system. Place in appropriate container.

### 6.3. Methods and material for containment and cleaning up

Not hazardous substance. Collect and put into containers and close securely.

## 7. HANDLING & STORAGE

### 7.1. Precautions for safe handling:

No special handling has been shown to be necessary.

### 7.2. Conditions for safe storage, including any incompatibilities:

Store in tightly closed original container in a dry, cool and well-ventilated place. Keep away from heat, sparks and open flame.

### 7.3. Specific end use(s):

The identified uses for this product are detailed in Section 1.2.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters:

Data is not required.

### 8.2. Exposure controls

Protective equipment:

Goggles. Gloves.

Process conditions:

Provide eyewash station.

Engineering measures:

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

Respiratory equipment:

Not necessary under normal conditions.

Hand protection:

Protective gloves and goggles must be used if there is a risk of direct contact or splash.

Eye protection:

Wear safety goggles.

Other protection:

Use engineering controls to reduce air contamination to permissible exposure level. Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact.

Hygiene measures:

Wash promptly if skin becomes contaminated. Promptly remove non-impervious clothing that becomes contaminated. When using do not eat, drink or smoke.

## 9. PHYSICAL & CHEMICAL PROPERTIES

---

### 9.1. Information on basic physical and chemical properties

Appearance:	Solid fibre, nonwoven fabrics some resin coated.
Colour:	White.
Odour:	Odourless.
Solubility:	Information is not required.
Initial boiling point and boiling range:	Not available.
Melting point (°C):	Not available.
Relative density:	Not available.
pH value:	pH balanced.
Flash point:	Not available.
Vapour pressure:	Not available.
Decomposition temperature:	Not available.
Auto ignition temperature:	Not available.
Viscosity:	Not available.
Flammable properties:	Not available.
Partition coefficient (N-Octanol/Water):	Not available.

**9.2. Other information:** No information required.

## 10. STABILITY & REACTIVITY

---

<b>10.1. Reactivity:</b>	There are no known reactivity hazards associated with this product.
<b>10.2. Chemical stability:</b>	Stable under the prescribed storage conditions.
<b>10.3. Possibility of hazardous reactions:</b>	Unknown.
<b>10.4. Conditions to avoid:</b>	Avoid heat, flames and other sources of ignition. Avoid exposure to high temperatures or direct sunlight.
<b>10.5. Incompatible materials:</b>	Not known.
<b>10.6. Hazardous decomposition products:</b>	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

## 11. TOXICOLOGICAL INFORMATION

---

### 11.1. Information on toxicological effects

General information:	See the cosmetic product safety assessment for health hazards.
Toxicological information:	Biologically inert and not harmful. Not genotoxic, carcinogenetic or harmful for reproduction.
Skin corrosion/irritation:	Not available.
Severe eye damage/irritation:	Not available.
Skin and respiratory sensitisation:	Not available.
Germ cell mutagenicity:	Not available.
Carcinogenicity:	Not available.
Reproductive toxicity:	Not available.
Specific target organ toxicity	Not available.
– single exposure:	
Specific target organ toxicity	Not available.
– repeated exposure:	
Aspiration toxicity:	Not applicable.
Inhalation:	Data is not required.
Ingestion:	Gastrointestinal symptoms, including upset stomach.
Skin contact:	Data is not required.
Eye contact:	May cause redness.

## 12. ECOLOGICAL INFORMATION

Ecotoxicity:	The product is not classified as environmentally hazardous.
<b>12.1. Toxicity:</b>	No data available.
<b>12.2. Persistence and degradability:</b>	The polyester is stable in the environment and the cellulose can be microbiologically degraded like natural products. The products of incineration with sufficient oxygen are water and carbon dioxide.
<b>12.3. Bioaccumulative potential:</b>	Not bioaccumulative.
<b>12.4. Results of PBT and vPvB assessment:</b>	This product does not contain any PBT or vPvB substances.
<b>12.6. Other adverse effects:</b>	No significant effect or critical hazard known.

## 13. DISPOSAL CONSIDERATIONS

<b>13.1. Waste treatment methods:</b>	Dispose of waste and residues in accordance with local authority requirements. Environmental manager must be informed of all major spillages.
---------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------

## 14. TRANSPORT INFORMATION

General:	The product is not covered by international regulation on the transport of dangerous goods (IMDG, IATA, ADR/RID).
<b>14.1. UN number:</b>	Not applicable.
<b>14.2. UN proper shipping name:</b>	Not applicable.
<b>14.3. Transport hazard class(es):</b>	Transport labels: No transport warning sign required.
<b>14.4. Packing group:</b>	Not applicable.
<b>14.5. Environmental hazards</b>	
Environmentally hazardous substance /marine pollutant:	No.
<b>14.6. Special precautions for user:</b>	Not applicable.
<b>14.7. Transport in bulk according to Annex II of MARPOL73/78 and IBC Code:</b>	Not applicable.

## 15. REGULATORY INFORMATION

<b>15.1. Labelling and classification:</b>	Not classified.
--------------------------------------------	-----------------

## 16. OTHER INFORMATION

Additional information:	A Safety Data Sheet is not required for cosmetic products according to Regulation No. 1907/2006 (REACH, Article 2). This Safety Data Sheet is supplied as an additional service.
