

# SAFETY DATA SHEET

Compilation date:

compiled according to Regulation (EC) No. 453/2010  
21/02/23

Revision:

3\*

## 1. Identification of the Substance/Preparation and of the Company/Undertaking

### 1.1. Product identifier

Product form: Mixture  
Trade name : **Sanitising Powder**  
Product group : Trade product  
Product code : **SPD844**

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1. Relevant identified uses

Main use category : Professional use  
Function or use category : Washing and cleaning products (including solvent based products).  
A professional, multi-purpose, surface sanitising powder formulated for cleaning and disinfecting hard surfaces and equipment in the brewing, dairy, meat and food processing industries.

#### 1.2.2. Uses advised against

No additional information available

### 1.3. Details of the supplier of the safety data sheet

Company Name: **Spearhead**  
**4 Symington Place**  
**Riverside Business Park**  
**Irvine**  
**KA11 5DE**  
**Tel: 0345 180 1800**  
**Email: sales@spearheadhealthcare.com**

### 1.4. Emergency Telephone Number

National Poisons Information Service  
0344 892 0111  
Only for healthcare professionals.  
Registration with National Poisons Information Service optional.

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720.**

Eye Irrit. 2: H319;  
Skin Irrit. 2: H315  
Contact with acids liberates toxic gas: EUH031

### 2.2 Label Elements

Hazard Pictograms (CLP)

Signal word (CLP): Warning  
Hazard Statements (CLP): H319: Causes serious eye irritation.  
H315: Causes skin irritation.  
EUH031: Contact with acids liberates toxic gas

Precautionary Statements (CLP): P102 Keep out of reach of children.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.  
P235+P410 Keep cool. Protect from sunlight.

P301 IF SWALLOWED:  
P313 Get medical advice/attention.  
P302+P352 IF ON SKIN: Wash with plenty of water.  
P332+P313 If skin irritation occurs: Get medical advice/attention.  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P337+P313 If eye irritation persists: Get medical advice/attention.  
P402+P404 Store in a dry place. Store in a closed container.

### 2.3 Other Hazards

Other hazards not contributing to the classification:

No presence of PBT and vPvB ingredients.

The full texts for all H- and EUH-phrases are displayed in Section 16 'Other Information'.

### 3. Composition/information on ingredients:

Common Name	CAS No./ EC No.	Classification	Conc (%)
SODIUM CARBONATE	497-19-8 207-838-8	Eye Irrit. 2, H319	30 - 50
<i>REACH REG No: 01-2119485498-19-XXXX</i>			
SODIUM TROCLOSENE DIHYDRATE	51580-86-0 220-767-7	Acute Tox. 4; H302 Eye Irrit. 2; H319	1 - 10
<i>REACH REG No: 01-2119489371-33-XXXX</i>	STOT SE 3; H335	Aquatic Acute 1; H400 Aquatic Chronic 1; H410 EUH031	

The full texts for all H- and EUH-phrases are displayed in Section 16 'Other Information'.

### 4. First-aid measures

#### 4.1. Description of first aid measures

First-aid measures after inhalation : IF INHALED: remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice if you feel unwell.  
First-aid measures after skin contact : IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention, and discontinue use of product.  
First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, immediately call a doctor.  
First-aid measures after ingestion : IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Drink plenty of water. Seek medical advice if you feel unwell.

#### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation : Coughing, sneezing.  
Symptoms/injuries after skin contact : Redness. Swelling. dryness. Itching.  
Symptoms/injuries after eye contact : Severe pain. Redness. Swelling. Blurred vision.  
Symptoms/injuries after ingestion : Oral mucosal or gastro-intestinal irritation. Nausea. Vomiting. Excessive secretion. Diarrhoea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Refer to section 4.1.

### 5. Fire fighting measures

**Extinguishing media:** Product itself is not explosive or flammable. The product itself will not burn. If anything, packaging may be involved in a fire. Use CO<sub>2</sub>, dry chemical powder, alcohol resistant foam or other media appropriate for materials actually involved in the fire. If water is used, contain run-off.

**Special hazards:** When heated sufficiently, product may decompose to form toxic fumes, including chlorine gases.

**Special protective equipment:** Fire fighters should wear approved self-contained breathing apparatus and full protective clothing.

## 6. Accidental release measures

### Personal precautions:

Avoid contact with skin and eyes. Avoid inhalation of dust. For appropriate personal protection see section 8.

### Environmental precautions:

Although this product is suitable for down the drain disposal it is advised that as much of the solid is contained and scooped up, before final dispersal of any residue with water.

### Methods and material for containment and clean-up:

Prevent leakage into sewers or surface water by utilising bunding, absorbent booms, drain covers and soil or sand dikes. Contact appropriate environmental protection agencies, (Environment Agency in the UK) and local water authorities if significant contamination occurs.

For small and large spills: scoop spillage into suitable plastic containers and rework/dispose as per local legislation.

## 7. Handling and storage

### Precautions for safe handling:

Avoid inhalation of dust. DO NOT mix with other chemicals. Never add water directly to this product as it may cause a vigorous reaction or boiling. Always dilute by carefully pouring the product into water. Avoid contact with neat product on skin and eyes. Wear protective clothing as per section 8.

### Storage precautions:

Store in closed original container, with tight fitting lid, in a cool and dry area, with good ventilation.

## 8. Exposure controls / personal protection

### 8.1. Control parameters

#### Sodium Carbonate (CAS 497-19-8)

#### DNEL/PNEC Values

DNEL/DMEL (Workers)

Long-term - local effects, inhalation 10 mg/m<sup>3</sup>

DNEL/DMEL (General population)

Acute - local effects, inhalation 10 mg/m<sup>3</sup>

### 8.2. Exposure controls

8.2.1. Appropriate engineering controls: Not applicable.

8.2.2. Personal protective equipment

Hand protection:

Wear gloves during direct contact and hand-washing.

Eye protection:

Wear eye/face protection.

Skin and body protection:

Wear appropriate long-sleeved clothing to minimize skin contact

Respiratory protection:

Wear appropriate respirator when ventilation is inadequate, P3.

### 8.2.3. Environmental exposure controls:

No particular measures required

## 9. Physical and chemical properties

Appearance: White powder

Odour: Faint Chlorine

pH (10% aqueous solution): ca. 11.5

Melting point: Not determined

Boiling point: Not determined

Flash point: Not combustible

Evaporation rate: Not determined

Flammability: Not combustible

Explosive properties: Non-Explosive

Oxidising properties: Not determined

Vapour pressure/density: Not determined

Relative density: ca. Not Determined

Water solubility: Soluble

Partition coefficient: Not determined

Auto ignition temperature: Not combustible

Decomposition temperature: Not determined

Viscosity: Not determined

## 10. Stability and reactivity

### Stability:

Stable under normal conditions.

### Conditions to avoid:

Reacts violently with strong acids. Generates toxic gas in contact with acid. The product will harden into a solid mass in contact with water and moisture. Avoid exposure to high temperatures or direct sunlight.

### Materials to avoid:

Strong acids. Aluminium, Tin, Zinc and their alloys.

Do not mix with other cleaning products unless advised to do so by a professional from the industry.

### Hazardous decomposition products

Toxic chlorine gas can be released if heated. When heated, vapours/gases hazardous to health may be formed.

## 11. Toxicological information

### 11.1 Information on toxicological effects

#### Acute Oral Toxicity:

May cause burns in mucous membranes, throat, oesophagus and stomach.

#### Acute Inhalation Toxicity:

Dusts may irritate throat and respiratory system and cause coughing.

#### Acute Dermal Toxicity:

Irritating/ damaging to skin

#### Skin Corrosion/Irritation:

May cause chemical burns of the skin. Prolonged contact may cause tissue damage.

#### Serious eye damage/eye irritation:

Risk of corneal damage. Visual disturbances including blurred vision.

#### Sensitisation:

Not expected to provoke a sensitisation reaction.

#### Repeated Dose Toxicity:

Not data available.

**Assessment of STOT single exposure:** No data available

**Assessment of STOT repeated exposure:** No data available

**Risk of Aspiration Toxicity:** No data available

### Sodium Carbonate (CAS 497-19-8)

LD50 oral rat 2800 mg/kg

LD50 dermal rabbit 2001 mg/kg

ATE CLP (oral) 2800 mg/kg bodyweight

ATE CLP (dermal) 2001 mg/kg bodyweight

## 12. Ecological information

On the basis of raw materials and comparable substances contained in the product the following ecological evaluation is obtained.

**Ecotoxicity:** This product is intended for wide dispersive use, is not considered harmful to aquatic organisms and is compatible with the down-the-drain disposal route. No known adverse effects on the functioning of water treatment plants under normal use conditions as recommended. The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

**Persistence and degradability:** Rapidly degrades to Sodium Chloride by chemical reaction with organic matter in effluent. This product has not been found to cause long-term adverse effects in the environment. The surfactants used in this product are biodegradable in line with the requirements of EU Detergent Regulation (EC) No 648/2004. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

**Bioaccumulative potential:** The surfactant ingredients of this product are not expected to bioaccumulate.

**Mobility in soil:** Not determined.

## 13. Disposal considerations

Consumer products ending up down the drain after use. Observe safe handling precautions and local legislation.

The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation EC/648/2004 on detergents.

## 14. Transport information

**UN No:** None

**Classification:** Not classified as hazardous for transport.

**UN proper shipping name:** None  
**Transport hazard class:** Not subject to ADR/IATA/IMDG/RID codes.  
**Packing group:** None  
**Environmental hazards:** None  
**Special precautions for user:** None

## **15. Regulatory information**

### **15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

#### **15.1.1. EU-Regulations**

No REACH Annex XVII restrictions. Contains no substance on the REACH candidate list

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

#### **15.1.2. National regulations**

No additional information available

### **15.2. Chemical safety assessment**

No chemical safety assessment has been carried out

## **16. Other information**

Usage and handling instructions are not mentioned on this Material Safety Data Sheet. The labelling of the product is indicated in Section 2.2.

The full text of the H- and EUH-phrases indicated in this safety data sheet are as follows:

H302	Harmful if swallowed
H315	Causes skin irritation
H319	Causes serious eye irritation
H400	Very toxic to aquatic life
H410	Very toxic to aquatic life with long lasting effects
EUH031	Contact with acids liberates toxic gas.

The information given has been compiled with reference to the Chemicals (Hazard Information & Packaging For Supply) Regulations (CHIP4) 2009 as amended, the Registration, Evaluation, Authorisation & Restriction of Chemicals (REACH) Regulations, as amended, the Control of Substances Hazardous to Health Regulations (COSHH) 2002, as amended, and Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006. This information also harmonises the provisions and criteria for the classification and labelling of substances, mixtures and certain specific articles within the Community, taking into account the classification criteria and labelling rules of the GHS.

\* Version History - Reason for Revision:

1. Add Classification According to (EC) 1272/2008 (CLP)
2. Remove Classification According to Directive 67/548/EEC or 1999/45/EC. Update Supplier Address.
3. Update UK REACH Regulations. Update GB-CLP Regulation. Update UK SI.

**Legal disclaimer:** The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
