

SAFETY DATA SHEET

Compilation date: 05/04/2022

Revision: 1

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

Trade name: Skin Cleansing Body Wash
Product code: SSF323

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1 Relevant identified uses

Function or use category: A solution for washing the body without rinsing

1.2.2. Uses advised against

No additional information available

1.3. Details of the supplier of the safety data sheet

Company Name: Spearhead
4 Symington Place
Riverside Business Park
Irvine
KA11 5DE
Tel: 0345 180 1800
Email: sales@spearheadhealthcare.com

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Eye contact: Causes serious eye irritation if left untreated.
Ingestion: Ingestion may produce health damage.
Skin Reaction: May cause an allergic skin reaction.

REACH - Art.57-59: The mixture does not contain Substances of Very High Concern (SVHC) at the SDS print date.

Dispose of contents/container in accordance with local regulations.

3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS Number: Not applicable, preparation is a mixture. Individual ingredient MSDS available upon request.
EINECS Number: Not applicable, preparation is a mixture. Individual ingredient MSDS available upon request.
Composition: An aqueous solution of a proprietary blend of nonionic surfactants, humectant, preservative system which is listed in Annex VI of Directive 76/768/EEC, foam booster, chelating agent and fragrance.
Ingredients: Aqua, Propylene Glycol, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Parfum, Phenoxyethanol, Sodium Benzoate, Citric Acid, Disodium EDTA, Limonene, Linalool, Citronellol

4. FIRST AID MEASURES

Avoid eye contact, rinse with water if contact occurs being careful where contact lenses apply. For children & sensitive skin areas, test before use and discontinue if irritation occurs. Children should be supervised. If any irritation occurs seek medical advice.

5. FIREFIGHTING MEASURES

Extinguishing media: Water spray/fog, foam, carbon dioxide and dry powder.
Extinguishing media which must NOT be used: Water jet.
Standard protective equipment should be worn by fire fighters.
Protection of fire fighters: In the event of a large fire toxic fumes containing oxides of carbon and nitrogen may be formed, which would necessitate the use of a self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid direct contact with the eyes.

Clean-up procedures: Absorb any preparation onto a suitable inert material, which should be collected mechanically with spilled product for subsequent disposal.

7. HANDLING & STORAGE

Handling: No special measures required.

Storage: Store under normal warehouse conditions.

Packing as recommended by the manufacturer.

Check all containers are clearly labeled and free from leaks.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure controls: No assigned values for the ingredients in this preparation.

Personal protective equipment: None required under normal conditions of use.

9. PHYSICAL & CHEMICAL PROPERTIES

Appearance:	Very pale yellow, water thin liquid
Odour:	Characteristic
pH (as supplied):	5.5
Melting point/freezing point:	-10°C
Boiling point:	>100°C
Solubility in water (g/L):	Miscible
Relative density (water = 1):	1000
VOC g/L:	33.97069504

10. STABILITY & REACTIVITY

This preparation is stable under normal conditions of storage and use and no chemical incompatibility is known.

11. TOXICOLOGICAL INFORMATION

This product is a cosmetic product intended for skincare use. Essentially non-toxic.

Inhaled:

The material is NOT thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

Ingestion:

The material has NOT been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.

Skin Contact:

The material is NOT thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.

Eye:

Although the liquid is NOT thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).

Chronic:

Skin contact with the material is more likely to cause a sensitisation reaction in some persons compared to the general population. Propylene glycol is thought, by some, to be a sensitising principal following the regular use of topical creams by eczema patients in neat form. There is limited evidence that, skin contact with this product is more likely to cause a sensitisation reaction in some persons compared to the general population.

12. ECOLOGICAL INFORMATION

Based on the ingredients present and their concentrations, this preparation is, according to the conventional method of Directive 1999/45/EC and subsequent amendments, classified as 'SAFE' to the environment.

13. DISPOSAL CONSIDERATIONS

Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. TRANSPORT INFORMATION

This preparation is not classified as "Hazardous" for transport purposes.

15. REGULATORY INFORMATION

This preparation is not classified as 'Hazardous' for labelling purposes.

Ingredients: Aqua (Water), Propylene Glycol, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Phenoxyethanol, Sodium Benzoate, Citric Acid, Disodium EDTA, Parfum (Fragrance), Limonene, Linalool, Citronellol.

Individual Levels available upon request for regulatory purposes.

This formulation has been taken into consideration the general toxicological profile of each ingredient used, the chemical structure, the CIR panel evaluation where available, the level of exposure (full technical data and/or toxicology tests are held for each ingredient) and a total daily exposure has been calculated along with the margins of safety for each ingredient. As a result of our evaluation the product has been classified as: SAFE.

16. OTHER INFORMATION

This Safety Data Sheet, which takes into consideration the requirements of Directive No1223/2009 plus subsequent amendments and further regulations. It is believed to be correct and corresponds to the latest state of scientific/technical knowledge but all data, instructions, recommendations and/or suggestions are made without guarantee.
